

"In the future I see open fields for more important research. Psychology will be based on a new foundation, that of the necessary acquirement of each mental power and capacity by gradation."

Charles Darwin, On the Origin of Species

How can you use a woman's cell phone bill to predict where she is in her reproductive cycle?

Why are men (but not women) far more likely to risk their lives in public than in private?

How does political conservatism help fight infection from parasites? In The Rap Guide to Human Nature, Baba Brinkman explores the most fascinating findings of evolutionary psychology, the surprising behavioral science of the world's most bizarre primate.

Original music and turntablism by Mr. Simmonds.

"Warm, funny, and fascinating throughout, all born on the ingenious rhymes and charismatic stage presence of the Canadian... a wonderful example of what a fringe show can aspire to be."
