

This is a recording of the show made in March 2008, when Rich was coming to the end of his 40th year. And much like an old man's belly, this release is our most bloated to date. So bloated in fact that we need another disc to fit everything on. As well as the usual extras like an interview and photo slide show, there's a specially shot documentary retracing Rich's infamous night in Liverpool, a video version of Rich's podcast with Andrew Collins, the complete one off comedy drama 'A Very British Cult' and lots more.

Rich is still single...never been married...has got no kids.
Has he wasted his life?

Is it time to finally grow up and get out the pipe and slippers and await the blessed release of death?
Or does life really begin at 40, giving him the excuse to go around in nappies and make jokes about poo and wee for a good three years to come?
